References External links Category:2013 software Category:Visio (software)Elizabeth Warren has been a divisive figure in the political world for many years, and her controversial decision to join the race for the 2020 presidential nomination has only added to her already divisive nature. The Massachusetts senator's chances of securing the Democratic Party's nomination for the November 2020 presidential election have been rapidly descending into a "vanishing point" for several weeks now. After a badly-received performance in the first Democrat debate earlier this month, and a slew of recent campaign gaffes from the senator, national Democrats are now said to be considering replacing the candidate in the top spot on their presidential ticket with another candidate. On his Tuesday night show the "Fox News Sunday" anchor Chris Wallace asked President Donald Trump whether he is concerned that "some Democrats will leave her" on the ticket if Warren fails to secure the nomination. "I think Elizabeth Warren is playing into our hands by making the case that the thing we've got to do is make sure that Donald Trump is not re-elected," he said. "Look, why are Democrats making this crazy case about health care? We have a great thing. It's called Medicare," he continued. "You haven't heard a lot about Bernie Sanders. He hasn't done
